**For the favour of publication****Dr. B R Ambedkar played a vital role in Nation Building**

-Dr. Narendra Jadhav

Dr. Narendra Jadhav, Member of Parliament and Indian planning commission delivered a special lecture at JSS College of Arts, Commerce & Science, BN Road, Mysore, on the occasion of Golden Jubilee Celebration of the College about "Dr. Ambedkar's Contribution to Nation building"

He opined though we are celebrating 125<sup>th</sup> birthday of Dr. B R Ambedkar, yet we are unable to understand him completely. We have focussed him only as the uplifter of untouchables and founder of our constitution, but we have forgotten him as a prominent leader in shaping the social, political and cultural aspects for modern India. Unfortunately we see him as a leader of a particular community only. He has written more than 22 books about Indian social system.

Further he said that Ambedkar was a voracious reader. He was well versed in various fields. He visited various universities of different countries to make research on economic system, legislature etc. He used his knowledge for the welfare of India. He fought against the evil practices prevailed in Indian society. It is true that there was a difference of opinion about untouchability between Gandhi and Ambedkar but both worked for the nation building and upliftment of untouchables.

Revolutionary ideas of Ambedkar brought reforms in our country and made him to be known as a prominent national leader of free India.

The Chief Guest Sri. Kiran Kumar, Chescom Director, said that the Ambedkar's future vision about education, legislature, organisation, etc., have helped to build India on a strong foundation.

Prof. B.V Sambashivaiah, Chief Executive of the College welcomed, Principal M Mahadevappa rendered vote of thanks and Golden Jubilee Committee Secretary, Prof. D S Sadashivamurthy compeered.

  
(Prof. M Mahadevappa)
