

7.1.3 Waste management- conversion of solid waste into manure

- **Solid waste management in the campus**

JSS College of Arts, Commerce, and Science on Ooty Road, Mysore, has implemented an innovative system to convert solid waste generated on campus into organic manure. Through composting techniques and bio-digesters, organic waste such as food scraps and garden trimmings are processed to produce nutrient-rich compost. This sustainable approach not only reduces the volume of waste sent to landfills but also enriches the soil for gardening and landscaping purposes within the college premises. It exemplifies the institution's commitment to environmental conservation and responsible waste management practices.
