PRESS REPORT

Every organism has equal rights for life but human greed and luxury life destroying the beauty of nature

Prof. T.C. Taranath

Hon'ble Vice-Chancellor, Hassan University

Nature has enriched resources and provisions for the convenience of living of every organism. The diversity of resources, naturally balanced ecological system needs to be made utilised for safe and happy spending of life. Humans destroying the beauty of nature by consuming most of the resources due to the comfort and luxury life with too much greed. The Hon'ble Vice Chancellor of Hasana University Prof. T.C. Taranath addressed the gatherings in his inauguaral speech in the One Day State Level Seminar on 'Biodiversity Conservation: Strategies and Challenges (BCSC)', A G20 Jan Bhagidari Event organized by PG Department of Botany of JSS College of Arts, Commerce and Science, Ooty Road, Mysuru in collaboration with Department of Studies in Botany of University of Mysore, Manasagangothri on 26 July 2023. He quoted the lines from vedhic chanting, like, 'Asathomā Sadgamaya' and correlated the meaning of living of each organism peacefully. He said that the conservation and preservation of biodiversity and natural resources for future generation is at great need and one has to understand about this.

The chairman of DOS in Botany of University of Mysore, Prof. K.N. Amruthesh delivered keynote address. He threw light on the cause and consequences of extension of species due to anthropogenic activities. He felt that, tremendous loss of biodiversity needs to be addressed immediately by the community who are involved in extensive research including students, and local society to conserve the diverse plant and all living organisms. The significance of geographical locations and existence of diverse plant family in the regions such as Himalaya, Western Ghats, etc. were showcased by him. He called the audience to swear about prompt conservation of biodiversity on this livable planet earth without any damaging consequences. He has appreciated the efforts of the college for its initiative to organize this very needful event and for the choice of appropriate resource persons.

The Chief executive of the college Prof. B.V. Sambashivaiah presided in the inaugural function. In his presidential address, Prof. B.V. Sambashivaiah presented the background of G20 Presidency of India, significance and

objectives of Jan Bhagidari events which are being organized by higher education institutions across the country. Prof. Sambashivaiah has presented a detailed statistics about the living species, land area, conserved and preserved biodiversity in India. The importance of plants as sources of traditional as well as modern medicines has been highlighted by him. He pointed out about the threatening aspects to biodiversity such as population explosion, global warming, industrialization etc. In this context, he has advised the participants to look after the efficient and possible ways to save earth and life thus conservation of biodiversity for the convenience of future generation.

In the first session the Scientist- 'F' and Head of Office, Southern Regional Centre, Botanical Survey of India, Coimbatore, Dr. M.U. Sharief has delivered talk on the topic "Conservation of Biodiversity- A BSI Perspective". In the other one a lecture on "Biological diversity and bio prospecton for human welfare- concerns, strategies and challenges for 21st century" was delivered by Dr. R. Raghavendra Rao, Honorary Guest Faculty, JSS Academy of Science (Deemed Univ.), INSA Honorary Scientist.

More than 300 Postgraduate Botany students, 65 faculty and 20 research scholars were benefitted by the seminar.

The Principal Prof. M.P. Vijayendra Kumar welcomed the guests, dignitaries, and all others. Organizing Secretary Prof. Biligiriranga proposed vote of thanks. Dr. Sindhu G M compered the function. Ms. Vasavi and team rendered the invocation.
